

Battery Warning

- Lithium polymer batteries are extremely hazardous and liable to cause serious injuries to persons or property. The user accepts liability for the use of a lithium polymer battery. As the manufacturer and the distributor cannot ensure the battery is used correctly (charging, discharging, storage, etc.), they cannot be held liable for damages caused to persons or property by improperly used batteries.
- In the event of battery leakage, avoid the liquid coming into contact with skin and eyes. In case of contact with the skin, wash copiously with soap and water. In case of contact with the eyes, rinse copiously with cold water and consult a doctor. If you notice a suspicious smell or noise, or observe smoke around the charger, disconnect it immediately.
- Non-compliance with the instructions below could result in gas being given off, fire, electric shock, or an explosion.
- The RVR battery is designed to be inserted in only one direction, ensuring the correct polarity of the battery terminals. Do not force the battery into RVR as this can cause damage and potential harm.

Charging

- Remove the battery from RVR before charging. The charging port for the battery is inaccessible when installed in the RVR.
- Batteries are only to be charged under adult supervision.
- Battery chargers used with the toy are to be regularly examined for damage to the cord, plug, enclosure, and other parts. In the event of such damage, do not use the battery charger until it can be replaced or repaired.
- Examine the Sphero RVR regularly for damage to the cord, plug, enclosure, or other parts. Never use a damaged USB cord for charging or charge a damaged battery. Use only the supplied USB cable for charging. Misuse can cause electrical shock.
- Never charge a leaky battery or one that has been damaged.
- Do not use the Sphero RVR to charge any other battery. Non-rechargeable batteries are not to be recharged. Different types of batteries or new and used batteries are not to be mixed.
- Do not charge the battery near inflammable materials or on an inflammable surface (carpet, wooden flooring, wooden furniture, etc.) or conducting surface. Do not leave Sphero RVR unattended during charging.
- Never charge the device immediately after use while it is still hot. Let it cool down to room temperature.
- Do not cover your battery while charging. Recharge the battery at a temperature of between 0°C - 40°C (32°F - 104°F).

Use and storage

- Do not use Sphero RVR if its chassis has been broken and the battery's plastic cover has been cracked or compromised in any way.
- Do not expose the battery to excessive physical shock.
- Do not expose Sphero RVR and its battery to heat or dispose of it in a fire.
- Do not put the battery in a microwave oven or in a pressurized container.
- Do not attempt to dismantle, pierce, distort, or cut the battery and do not attempt to repair the battery. Do not place any heavy objects on Sphero RVR, the battery, or charger.
- Do not subject Sphero RVR and its battery to large temperature variations. Do not place your Sphero RVR near a source of heat.
- Do not clean Sphero RVR with a solvent, denatured alcohol, or other inflammable solvents. When cleaning, be sure to power off RVR.
- Disconnect the charger when you are not charging the battery. Remove the battery once it can no longer power your RVR. Do not store the battery inside RVR for long periods of time.

End of Life Product Disposal

At the end of this product's life, do not dispose of this product in your general household waste. Instead, in order to prevent possible harm to the environment or human health from uncontrolled waste disposal, please dispose of this product separately in accordance with your local laws and regulations. For more information on the separate collection systems for waste electrical and electronic equipment that are available for consumers near your home free of charge, please contact your local municipality. You can also contact the retailer from which you purchased your Sphero RVR as they may have recycling services or may be part of a specific recycling program.

If disposed of properly, this product will be treated in an environmentally sound manner at a licensed recycling plant and its components will be recovered, recycled or reused in the most efficient manner in compliance with the requirements of the Directive on Waste Electrical and Electronic Equipment (2012/19/EU) of 14 February, 2014 (as subsequently amended or replaced) ("2012/19/EU").

Battery disposal

Damaged or unusable batteries must be disposed of in a container specially reserved for this purpose. When disposing of the battery, follow appropriate local guidelines and regulations. For further information, contact your local solid waste authority.
